

# Turkcom

Industrial supplies of processed plant bases to food production

**From nature**  
*to production*

Türkcom

# about us

Türkcom Company was established in 2011 and we are a food company with a wide range of organic and conventional products in Turkey for 12 years, prioritising customer satisfaction with a wide range of organic and conventional products and serving with a trust-oriented sustainable cooperation-based working system. We are taking firm steps towards becoming a pioneer in the food sector with its product range and meeting the demands of its customers. We prioritise customer satisfaction with our stable, competitive and advantageous price offers to our customers.

In addition to our ability to supply finished end products, we also supply single ingredients and/or mixed mixtures-compounds in bulk, such as juice, puree, puree concentrate and juice concentrate in 210 kg aseptic drums. We are experienced and offer customer-orientated solutions in B2B.

Based on the saying "Healthy life is possible with healthy foods", we are at your service with our healthiest products.
